

STATEMENT REGARDING ORAL ARGUMENT

Pursuant to Sixth Circuit Rule 34(a), Appellant, Janet Mavis Marcusse, pro se, requests oral argument because the Court's consideration of the issues presented by this appeal may be assisted or advanced by the presence of the parties before the Court to comment upon the issues and respond to inquiries by the Court.

This is a very complex case encompassing almost 4,000 pages in the trial transcripts alone. The seven issues presented from the four appellant lawyers in regards to nearly a five week trial in this case indicate the need for a genuine advocate for the accused at any oral argument at the Sixth Circuit Court of Appeals.
